The New York Sun of Saturday, the 6th inst., contained the following dispatch from

inst., contained the following dispatch from
this city:

Gustavis Goward of Chicago was nominated
to-day for Secretary of Legation at Japan,
Goward evidently has been obliged to give up
a contest with the State Department that he
has carried on for six months. Last spring
the office of Secretary of Legation at Madrid,
was created, the Diplomatic bill containing an
appropriation for that office. David Davis
and Secretary Licela recommended Goward
for that office, and the President nominated
him. He was confirmed, but has never been
able to get his instructions from the State
Department, John Davis, Freinghuysen's sonin-law, and Sevellon Brown are the autocrats
of the State Department. A young man
named liked was in charge at Madrid, and
fleed would have been obliged to wacate when
Geward assumed his office, for the two offices
were merged into that to which Goward was
appointed. Reed is a pet of semebody in
authority at the State Department, and so the
President and the Senate were defled. Reed
was retained and Goward denied the office
to which he was entitled. After a hopeless
effect to get his own, Goward gave up, and
received the appointment to-day to pay him
for his action.

"Patent Window-Hoister."

This "great invention" is attracting univer-eal attention. It has already been adopted by sal attention. It has already been adopted by many of the leading buildors in the Western, cities, and is acknowledged to be one of the best as well as the cheapest designs over invented. The simplicity of construction, cheapness and durability, are alone enough to insure for its acceptance into general use, and to take the place of the old-time cords and weights. No mechanic who has investigated this patent, but has pronounced it far ahead of any invention for a similar purpose, and we predict for Mr. Joseph H. Shaffield, the agent, entire success in his undertaking in bringing it into general use. The patent right for the District is for sale and all or any further information will be furnished on application to Joseph H. Shaffield, Myere' Hetel, No. 470 Pa. avenue.
